

Travel Better at Baha Mar

Participating in Baha Mar's waste reduction opportunities lets you travel better. Better for communities. Better for nature. Better for you.

From the moment you arrive in paradise to the moment you leave your luxury of choice, here's how to travel better at Baha Mar.

Reduce

Dine in. Sit back, relax, and enjoy the ambience of our world-class restaurants and cafes instead of ordering out, which cuts down on the disposable items used and discarded on property. **Use what you need.** Electricity, water, paper, and plastic all help make your stay more comfortable. Use what you need, and conserve the rest.

Refill

Try our water dispensers when you see them in the pool area, ESPA, and elsewhere. You can save the planet while saving money too.

Request

In many of our brands, hanging your towels up in your room lets us know you're happy to reuse them during your stay, helping us save water and energy.

Recycle

Recycling bins are scattered across the property, indoors and outdoors, for your empty **Aluminum cans**. Behind the scenes, we handle the rest of your waste, having found sustainable uses for food scraps, cardboard, and cooking oil.
